Subject: Dar Anderson Wells, CR 359
Attachments: Dar Anderson Wells, CR 359.pdf; WellReport_92042.pdf

Attached is a printout from our map showing the locations of the well we have registered for Dar Anderson along CR 359. (Dodds Creek Ranch has not transferred the wells into their name.) The well furthest left (orange dot) is a newer well, drilled in 2006, and the driller's report for it is attached. The other 4 wells (red dots) are older wells and all we have is the information that was provided to us when the wells were registered by Dar Anderson in 2004. I will number the wells 1-5 from left to right.

Well #1 – drilled in 2006, well report attached. Has an Operating Permit for 19 gallons per minute, Domestic use, 3 horsepower submersible pump

Well #2 - Has a Grandfather Permit for 48 gallons per minute, Livestock use, 360 feet deep, 6 inch diameter casing, 7 ½ horsepower submersible pump

Well #3 - Has a Grandfather Permit for 48 gallons per minute, Livestock use, 340 feet deep, 6 inch diameter casing, 7 ½ horsepower pump

Well #4 - Has a Grandfather Permit for 25 gallons per minute, Multi-Family use (4 houses), 320 feet deep, 6 inch diameter casing, 3 horsepower submersible pump

Well #5 - Has a Grandfather Permit for 25 gallons per minute, Livestock use, 320 feet deep, 6 inch diameter casing, 1 horsepower submersible pump

Let me know if there is more that you need or if you have any questions.
